Sketch Form follows on the next page

Do not be embarrassed or feel incompetent when sketching your product idea. We have worked with as little as a sketch drawn on the back of a napkin before. However, in order to get the information needed to complete your 3D Solid Model CAD design within your 15 minute free consultation we need you to be as accurate as possible. Include some simple dimension so we can understand the size. For assistance in understanding what we are looking for, but hand sketched, visit: [http://en.wikipedia.org/wiki/Plan_\(drawing\)](http://en.wikipedia.org/wiki/Plan_(drawing)) and click on the Latécoère 28 for reference
